WHO WE ARE

We are a world-class company that creates the finest herb-based products. Our purpose is to nourish the world and inspire a life of balance, authenticity, and well-being.

Our vision is to foster a culture of opportunity so that people anywhere feel empowered to challenge conventions, push beyond boundaries, and pave their own path to success.

We believe that investing in the holistic well-being of people allows them to live out their best life. Because of this, we're committed to empowering personal and professional prosperity while also supporting healthy living.

OUR VALUES

INTEGRITY

We protect the true nature of ingredients and refuse to compromise their nutritional power in our products, promoting complete wellness in families and communities around the world.

INNOVATION

We marry the intelligence of nature with the intellect of modern technology so that they complement each other, not compete.

We believe that everyone is capable of success, and we are committed to empowering each person to lead a life of independence and prosperity.

HARMONY

We pursue balance—in our lives and bodies—and we are committed to nurturing people's pursuit of a whole and peaceful life.

CONNECTEDNESS

We believe in the unshakable connections within ourselves, to people surrounding us, to our immediate environment, and to the universe.

WISDOM

We root all of our decisions in compassion for people and care for the future, using our collective knowledge for greater good.

Dr. Oi-Lin Chen, Founder & President. **Dr. Tei-Fu Chen**, Founder & Chairman of the Board.

Grounded in Tradition, Advancing through Innovation

Our company was founded by Dr. Tei-Fu Chen, a world-renowned herbalist with a degree in pharmacy, and his wife, Dr. Oi-Lin Chen, a licensed medical doctor.

They started Sunrider from a small office in Utah in 1982. But their remarkable journey really began in Tei-Fu's home country of Taiwan, where he learned from his grandfather that herbs were more than nutritious food, they were traditional medicine!

Tei-Fu, who was a sickly boy, received from his grandfather many recipes to cure and improve his health, all based in ancient herbal remedies. These remedies were so powerful that it sparked in Tei-Fu a lifelong passion for Chinese herbal philosophy, so he continued his study of herbs and chemistry in college. While there, he married a gifted medical student from Hong Kong, Dr. Oi-Lin Chen.

Today, Dr. Oi-Lin Chen, a Western-trained medical doctor and the president of Sunrider, Dr. Tei-Fu Chen, visionary entrepreneur, and their five children are actively involved in managing the company, a global enterprise operating in nearly 50 countries and territories, with thousands of independent business owners and franchise stores worldwide.

Dr. Tei-Fu Chen pursuing his lifelong passion for herbal study.

WHY SUNRIDER

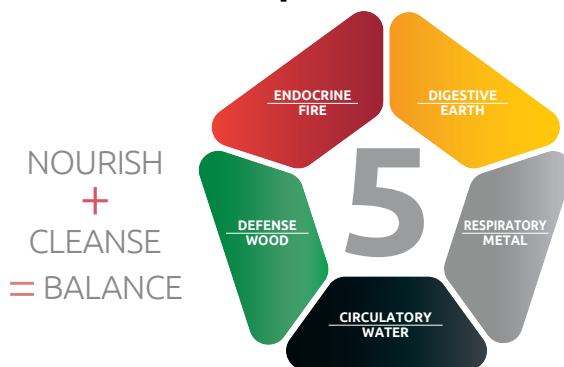

THE SUNRIDER DIFFERENCE

Guided by owner expertise, Sunrider® foods are formulated with unique blends of herbs and whole foods using a trade-secret process of extraction and concentration to ensure superior potency and nutrient absorption. Safe, natural, and wholesome, our products are free of artificial sweeteners, chemical additives, and artificial preservatives.

PRINCIPLE 1:

PHILOSOPHY OF REGENERATION®

Sunrider® products are based on the **Philosophy of Regeneration®**, the concept of properly nourishing (*yin*) and cleansing (*yang*) the five systems of the body with the right combinations of nutrients to promote balance, and thus, optimal health. Our aim is not to cure disease, but to promote optimal health. Our body enjoys health when all five systems run in balance.

Each bodily system is associated with a color and element.

PRINCIPLE 2:

FOODS, NOT CHEMICALS

Our body is designed to recognize foods as nourishment, not synthetic vitamins and other artificially processed foods. To maximize absorption, Sunrider provides concentrated nutrients from whole foods, and applies cutting-edge technology to preserve their life structures.

Sunrider® products are made from real whole foods.

PRINCIPLE 3:

VARIETY OF INGREDIENTS

There is no perfect food or ingredient. Too much or too little of one type of food can unbalance the body. Since no ingredient can do everything, our bodies require a variety of foods and nutrients to maintain optimal health, and Sunrider is a great source of it all.

Our bodies are too complex for one single solution.

PRINCIPLE 4:

EXPERTISE IN FORMULATION AND CONCENTRATION

Dr. Tei-Fu Chen is a world-renowned herbalist with a degree in pharmacy. His wife, Dr. Oi-Lin Chen, is a medical doctor. They work with their sons Dr. Reuben Chen, also a medical doctor, and Eric Chen, an organic chemist, to oversee the research, development, and manufacturing of every Sunrider® product.

Dr. Tei-Fu Chen

INNOVATION

We own the most advanced pharmaceutical-grade machinery available, specially customized to fulfill our exacting standards of product concentration, effectiveness, and safety.

INTELLECT

Sunrider's success has always been driven by its research and development, and its sole commitment to your health and well-being.

ULTRA CONCENTRATION

All Sunrider® products are highly concentrated and specially formulated to fulfill your nutritional gaps. They're also GMO free, pesticide free, and chemical free.

OWNER EXPERTISE

Sunrider's balanced fusion of East and West, tradition and technology, stems from Sunrider's founders, who are experts in the fields of health, nutrition, and science.

Working with their parents, Dr. Reuben Chen applies his background to oversee business development and help formulate new products, and Eric Chen manages all aspects of the Los Angeles Manufacturing Plants.

This multigenerational expertise leads a team of scientists to design and create all Sunrider® products.

Eric Chen
Vice President of Manufacturing

Reuben Chen, MD
Vice President of Business Development

As a family-owned company, Sunrider takes great pride in developing the world's best products. And while we're proud of our success, we continue to innovate new products and technologies to ensure Sunrider remains the company for today and future generations.

Our Los Angeles Manufacturing Plant houses the most advanced pharmaceutical-grade machinery available, specially customized to fulfill our exacting standards of product concentration, effectiveness, and safety.

SELF-MANUFACTURING

Sunrider owns and operates eight state-of-the-art manufacturing facilities worldwide, which collectively span over two million square feet. Owning our own facilities, including chemistry and microbiology labs, enables us to control every aspect of the manufacturing process, from the cultivation and selection of our natural ingredients to product formulation and packaging. None of our production steps are outsourced—which is truly exceptional in the industry.

Complete quality control ensures the integrity, safety, and exceptional quality of every Sunrider® product. This is exemplified by our Los Angeles Manufacturing Plant, which continues to exceed Good Manufacturing Practices (GMP) requirements set by the Food & Drug Administration (FDA).

PROCESS STEP-BY-STEP

Sunrider's ultra-precise manufacturing process sets our products apart from the competition.

STEP 1. CLEANSE

STEP 2. GRIND

STEP 3. FORMULATE

STEP 4. EXTRACT

STEP 5. CONCENTRATE

STEP 6. FLO-COAT

TRADE-SECRET TECHNOLOGY

Sunrider uses a trade-secret manufacturing process to extract and concentrate all the beneficial nutrients from herbs. Without concentration, you would have to consume huge quantities of certain foods to obtain their benefits.

For example, one bottle of Tei-Fu® MetaShaper® contains more resveratrol (a powerful antioxidant) than 1,000 bottles of red wine. You don't have to eat or drink a lot to enjoy healthy benefits—concentration makes this possible.

INVALUABLE SUPERFOODS!

The most common (and cheapest) method to encapsulate and package herbs in the health food industry is to grind them up, and then fumigate or irradiate as necessary. **In contrast, Sunrider never fumigates or irradiates its herbs.** Our environment-friendly approach uses a multi-step nutrient-enhancing concentration process that includes hand- and machine-cleansing, extraction, spray-drying, and flo-coating. This complex process captures the whole nutrition of the herb.

SKIN

WHY WE NEED SKIN CARE

Acid Mantle Barrier & pH-Balanced Products

SKIN CARE PROCEDURES

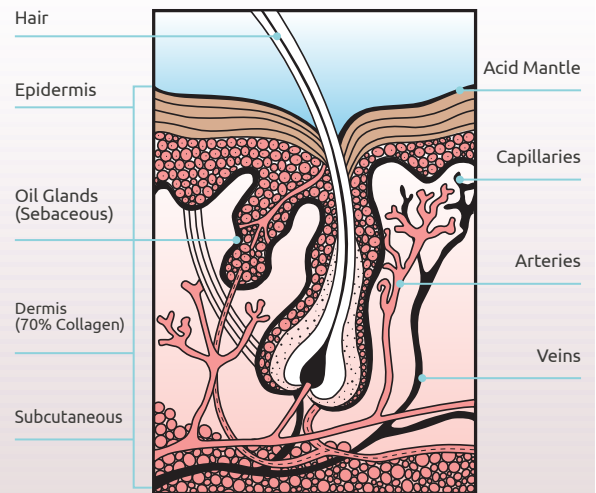

Nourish, balance, and protect your skin with our products (*Yin/In*). Cleanse toxins and impurities, and get your glow on (*Yang/Out*).

Skin is fortified by a shield called the acid mantle, which is only slightly acidic (with a pH between 5.5 and 6.5) and acts as a protective barrier.

Many companies use high-alkaline products of pH 8 and up, which strip the skin of this precious, protective acid mantle barrier. This leaves the skin prone to disorders, including wrinkles, dry skin, infections, and blemishes. In contrast, all Kandesn® skin care products are pH-balanced to reinforce and work harmoniously with the acid mantle. This helps keep your skin looking young, firm, and vibrant—for only when the skin is permitted to function at its best can it look truly beautiful.

ILLUSTRATION OF HAIR FOLLICLE

PAMPER YOURSELF

4 basic steps for healthy, ever-glowing, and young-looking skin.

USE SUNSCREEN

You've probably heard this a million times: Prolonged sun exposure can cause age spots, wrinkles, and even skin cancer. Well, that's true. To protect your skin from the sun's rays—especially those falling like a shower of heat between 10 a.m. and 2 p.m.—it's imperative to use a good sunscreen of at least 15 SPF.

BE GENTLE

Not all skin care products are created equal. In fact, mineral oils, unbalanced pH formulas, and harsh chemicals, to say the least, are frequently found in skin care lotions and moisturizers. But as the largest organ in the body, the skin must be protected and nourished with finesse. In other words, you must give your skin simply the best.

EAT HEALTHY

Are you what you eat? Some research suggests that a diet rich in antioxidants, but very low in refined carbohydrates and unhealthy fats promotes younger-looking skin. A healthy diet matches the colors of the rainbow and includes lean proteins, whole grains, fruits, and vegetables, plus the right amount of supplements.

REST WELL

Stress, anxiety, and lack of sleep can take a toll on the body—and the skin will reflect that! So to encourage healthy-looking skin, you must nurture and cultivate a healthy state of mind. Make time to do the things you enjoy. Get physically active, sip on a good cup of Calli® Night to relax, and give your body a good night's sleep. The results might be more dramatic than you expect.

KANDESN® REVITALIZING MASQUE

Clean. Exfoliate. Rejuvenate!

Rich in skin-nourishing botanicals such as jojoba seed oil, vegetable-origin squalane, and avocado oil, this luxurious peel-off masque gently exfoliates and leaves skin looking smooth, soft, and supple.

#30062 2 fl. oz.

OI-LIN® CLAY MASK

Want clean skin? Use thick mud!

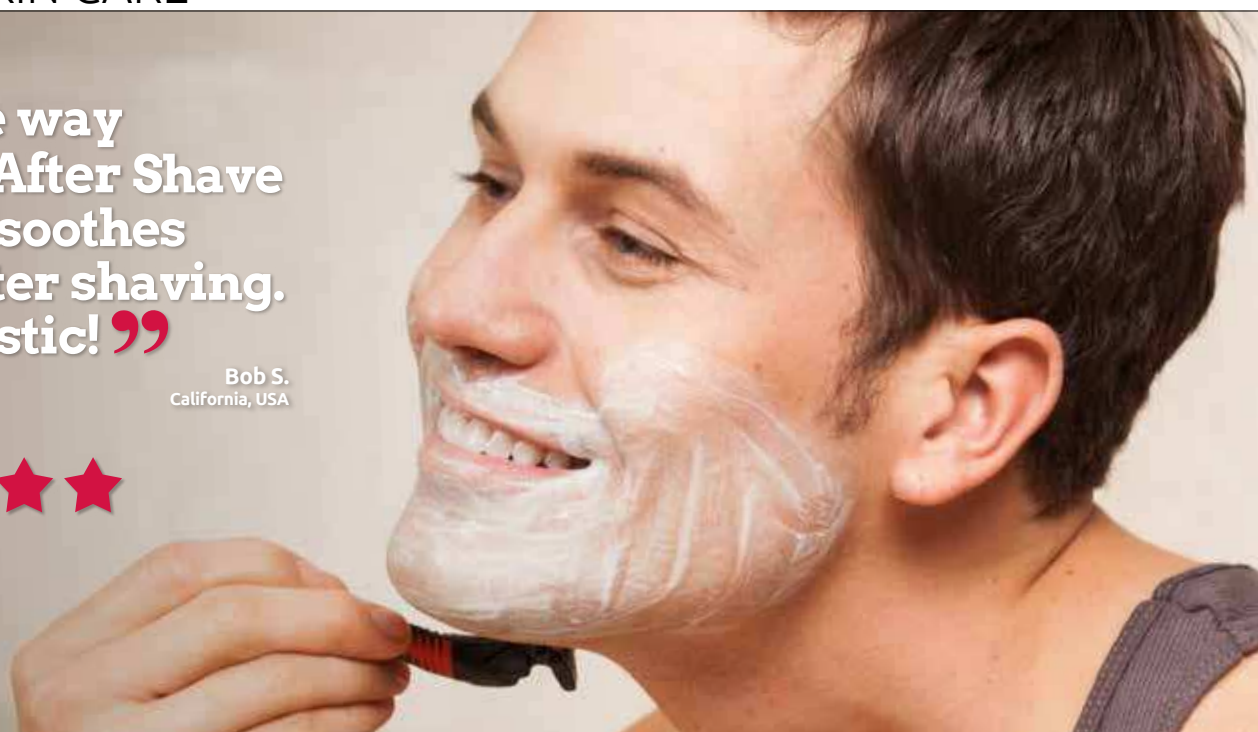

Made with two different clays, Oi-Lin® Clay Mask is designed to cleanse deeply and absorb excess oil. It helps draw out impurities from deep within the skin.

LOOK YOUNGER WITH THESE 4 AGE-DEFYING PRINCIPLES:

HARMONIZE

Help your skin do its job to breathe and protect. Use products that harmonize with your skin's natural oil-water balance.

BALANCE

Yin and yang. Balance your life with enough rest and activity. Nurture your skin's natural pH with balanced products.

MOISTURIZE

This is mandatory. Our skin dries, thins, and loses fat with age, so take advantage of Drs. Chen's innovative formulations to replenish the loss of your skin's plumpness.

SMILE

Smiling is beauty advice that works. Studies found that a happier disposition equals healthier living, and the healthier we live the better our skin will look.

“These products are exceptional!”
